| Autism                         | Migrainous neuralgia             | Varicose veins                         |
| Backache                       | Morbus Bechterew                 | Vitalization                           |
| Brachial neuralgia             | Morbus Sudeck                    | Wellness                               |
| Bronchitis                     | Neuritis                         | Wound healing                          |
| Burns                          | Neuropathy                       |  |
| Bursitis                       | Neuro sclerosis                  | <b>Brain Disorders</b>                 |
| Carpal tunnel syndrome         | Neurosis                         | High intensity 5 min.                  |
| Cartilage regrowth             | Neurovegetative somatic symptoms | Alzheimer                              |
| Cervical arthritis             | Oedema                           | Depression                             |
| Cervical myalgic headaches     | Osteoarthritis                   | Neuropathic pain                       |
| Charcot-Marie-Tooth neuropathy | Osteoporosis                     | Parkinson                              |
| Concussion                     | Osteomyelitis                    | Post traumatic stress                  |
| Cervico brachialgia            | Oxygenation                      | Smoking cessation                      |
| Coxarthrosis                   | Pain therapy                     |  |
| Coxitis                        | Pancreatitis                     | <b>LLLT Combo Probe</b>                |
| Complex regional pain syndrome | Periarthritis                    | High intensity 5 min.                  |
| Contusions                     | Phlebitis                        | High intensity 10 min.                 |
| Crohn's disease                | Phobia                           | High intensity 15 min.                 |
| Decubitus                      | Post radiotherapy treatment      | Medium intensity 5 min.                |
| Delayed fracture healing       | Prostatitis                      | Medium intensity 10 min.               |
| Dental treatment               | Prostate hypertrophy             | Medium intensity 15 min.               |
| Dermatitis                     | Pseudo arthrosis                 | Low intensity 5 min.                   |
| Diabetes                       | Psoriasis                        | Low intensity 10 min.                  |
| Dislocations                   | Relaxation                       | Low intensity 15 min.                  |
| Epicondylitis                  | Relaxation EEG waves             |  |
| Eczema                         | Retinitis                        | <b>Neuro Programs</b>                  |
| Facial neuralgia               | Rheumatoid arthritis             | Alpha [7] programs various intensities |
| Fibromyalgia                   | Rosacea                          | Alpha auto sequence                    |
| Fractures                      | Sacral arthritis                 | Beta [14] programs various intensities |
| Gonarthrosis                   | Scars                            | Beta auto sequence                     |
| Herpes                         | Sciatica                         | Delta [7] programs various intensities |
| Hallux valgus bursitis         | Sedation                         | Delta auto sequence                    |
| Heart                          | Sinusitis                        | Gamma [7] programs various intensities |
| Intercostal neuralgia          | Sleep disturbances               | Gamma auto sequence                    |
| Intramuscular fibrosis         | Spastic colon                    | Theta [7] programs various intensities |
| Internal injuries              | Spinal stenosis                  | Sleep [7] programs auto sequence       |
